Global MX-5 Cup Car Technical Service Bulletin #3-22-17C

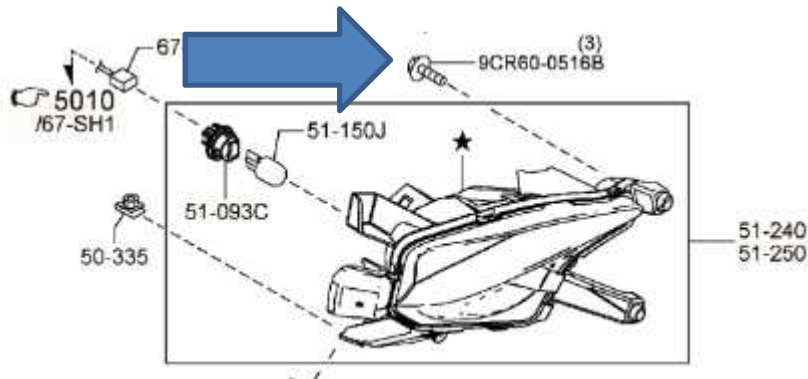

Optional: 2017 Global MX-5 Update: Reverse light removal

2017 GMX5 Optional Reverse light removal:

Competitors have requested that they be allowed to remove the reverse lights from the car. This optional TSB now allows this modification.

Removal:

1. Follow all safety standards and wear the appropriate safety gear!
2. Remove the 3 (three) Phillip head screws that secure each of the reverse lights from the rear fascia (see blue arrow below for reference).
3. Then zip tie the wire harness up and out of the way so that the wires are not visible from the rear of the car.

If you have any questions about this Technical Bulletin, please contact Glenn Long at:
